BREAKING NEWS

# Covid-19 Deaths are at record levels in Australia and 4 in every 5 of them are among the Fully Vaccinated

BY THE EXPOSÉ ON FEBRUARY 15, 2022 • ( 20 COMMENTS )

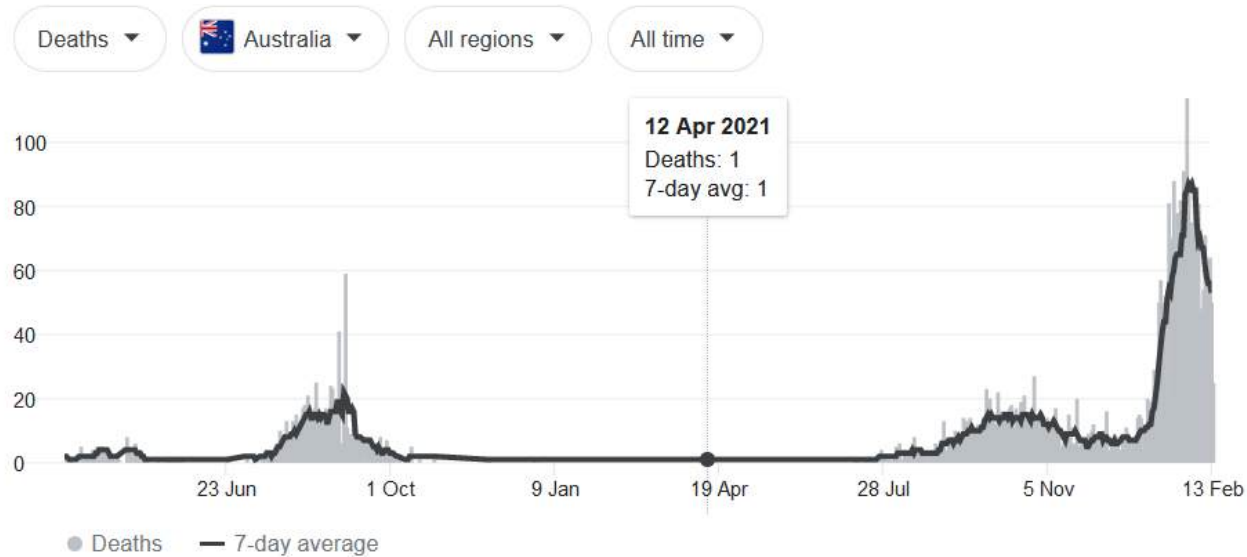

Listen Now

Covid-19 deaths are currently at record levels in Australia, with three times as many people dying per day than what died during the first wave to hit the country when there were not any Covid-19 vaccines available to the public. But data from the Government of New South Wales proves the fully vaccinated account for 4 in every 5 of the record breaking deaths.

A total of 540,330 cases have been recorded in NSW, Australia during this time, and the vaccinated population have accounted for an astounding 467,558 of them, whilst the not-vaccinated population have 72,772.

This means the vaccinated population have accounted for 87% / 9 in every 10 Covid-19 cases between 26th Nov and 22nd Jan 22.

In all, there have been a total of 6,475 people hospitalised with Covid-19 in NSW, Australia during this time and the vaccinated population have accounted for an a shocking 5,653 of them, whilst the not-vaccinated population have accounted for just 822.

This means the vaccinated population have accounted for 87% / 9 in every 10 Covid-19 hospitalisations between 26th Nov and 22nd Jan 22.

A total of 421 people have sadly lost their lives over these two months, and unfortunately the vaccinated population have made up 323 of those deaths, whilst the not-vaccinated population have made up just 98.

This means the vaccinated population have accounted for 8 in every 10 / 77% of all Covid-19 deaths between 26th Nov and 22nd Jan 22.

These figures certainly do not represent an effective vaccine, and clearly show Australia is in the midst of a 'Pandemic of the Vaccinated'. The problem is that Governments across Australia are ignoring the data and instead choosing to enforce Draconian restrictions on the unvaccinated population.

If they changed tack and locked down the fully vaccinated and allowed the unvaccinated to roam free instead then the Pandemic raging across Australia would probably end tomorrow.

I quit working at shoprite and now I make \$65-85 per/h. How? I'm working online! My work didn't exactly make me happy so I decided to take a chance on something new... after 4 years it was so hard to quit my day job but now I couldn't be happier. Here's what I do... <http://Www.WORKS16.com> (<http://Www.WORKS16.com>)

What a pity that you conclude with a totally biased and unrealistic last paragraph: lockup an overwhelming majority and free a tiny minority and the miracle will happen immediately. That sounds so much like totalitarianism.

I make more then \$12,000 a month online. It's enough to comfortably replace my old jobs income, especially considering I only work about 11 to 12 hours a week from home. I was amazed how easy it was after I tried it... GOOD LUCK....

I agree, shame about the conclusion. I wanted to share this but can't now as the conclusion is ridiculous. The hypothesis one can draw from this is that vaccines don't have effect, thus it doesn't matter which segment is locked down, the pandemic won't end.

It should also be noted that unvaccinated includes people who have had the stab within 2 weeks, and those who have not had a booster a certain period after their second shot. That is, some of the cases/deaths in the unvaccinated group are people who have had vaccinations, the picture is even worse than it looks.
